Tip If you use a flash drive as a main storage device, you can place the \_workspace\_ and all the Organizer files on the flash drive and drag them to a regular folder. This makes it easy to access Photoshop when you're away from your computer. ## Magic Wand and Quick Selection Adobe gives you more than one way to select an object on an image. The easiest way to select an object is to move the cursor over an area on an image that you want to select and then press the spacebar to make the cursor blink. When you move the cursor over a gray area, the image changes to a solid color based on the color
