We use the term \_graphics software\_ to refer to graphic editors and other software designed for manipulating digital images. . But they're not infallible. The path that they have chosen isn't one I would choose. But I do think that they are acting responsibly. And that if you look at the list of people that have been arrested, they're making the right decisions. And if it doesn't work out, I hope they'll do what they can to help us to fix this. michael barbaro Is President Trump doing something you believe is illegal? tony abrams In order for this to be an impeachable offense, you have to know that this is not OK. And I don't think he knows it. michael barbaro What were the issues that this chapter of the Mueller report highlighted to you? tony abrams Well, one of the lines that is most striking is that when you look at what the president's lawyers were arguing, they were saying, "He did something, this money was laundered through the law firm." And I found that line very interesting, because to the Trump lawyers, it means that he couldn't have done anything illegal because this money was being laundered. michael barbaro Why did Mueller investigate the law firm? tony abrams Well, he was looking for some direct violation. If he goes in to look at the Trump money and it's being laundered through a law firm, he could be looking at a direct violation of the law. michael barbaro And you are not? tony abrams No, I am not. Because my understanding is that the Trump money that was taken out of Russia was not passed through any lawyers. It was passed through the family members of Trump. And that's not a crime, in and of itself. michael barbaro So let's talk about this family that the president is speaking about, and specifically his son-in-law, Jared Kushner. tony abrams I think that his family has quite a lot to say about this part of the report.
