Wow! I have seen a lot of reviews on this game and I think it's going to be one of the top games on steam for this month. I didn't expect to say this but I'm already planning the next expansion! I would love to see some. My last Elden game was Cold Steel II, which I bought from the play store and felt that the online mode was more likely the saving grace of this game. The way I would describe the online mode is that it's more of a live-zoomed experience in the world of Elden. Some people don't like the idea of the player customizing their own character, but honestly it is fun in practice. It is true that players can become stronger and more experienced by using the modes that are included in the game, but they also have the opportunity to learn and grow throughout the game, often getting challenges from people in the same nation. They may not be as rich or as powerful, but even as a mortal, you get to experience amazing adventures and terrifying encounters. In the game, when you select one of your companions and accept their requests, they will become your ally in certain countries. It seems like it would make your experience easier as a new player, but I have heard that this is not the case. As long as you start from your own character, it will be the same as if you were in the same position as they. I personally started from level 1, have been working my way up, and I am already in the top tier of my nation. I have encountered all three of the endings, and have even been on the same level as the king of a nation. It hasn't changed my experience of being a new player, and I am still able to accomplish these things. Other than the online mode, this game has a story that many of us will remember. Without spoiling too much of it, the map of the story is full of many characters that we see in Cold Steel II. As a new player, I got to experience Elden as well as a group of characters that were extremely fun to be around. The world of Elden is so alive, and it has so much potential. I have no doubt that people from all ages will find it enjoyable. Many of the mechanics from the previous Cold Steel games are included, and the game will bring a sense of nostalgia to many. I really think that the sense of adventure and the sense of community is something that every single bff6bb2d33

Assessing key factors affecting visibility of persistently colonized hospital nurses. The authors assessed nurses' exposure to patient-related factors, particularly hand hygiene, in relation to their colonization with methicillin-resistant *Staphylococcus aureus* (MRSA). All nurses at one urban hospital were observed during morning patient care for 6 days; MRSA-positive samples were plated, and a clinical checklist was completed. Ordinary least squares regression was used to assess the impact of hand hygiene compliance, training, the unit rate of positive cultures, and time of day on the number of visible colonized nurses. The strongest predictor of the number of observed colonized nurses was the percentage of hand hygiene observed ($F_{3,14} = 4.927$, $p < 0.05$).
