The multiplayer game is currently being developed as an over-the-top action RPG. Due to the procedural generation of the environment, it is possible to navigate around the world and gain the achievement of exploring the world. The main features are as follows: • A vast, multilayered story, where the thoughts of the characters interact. • Engaging action combat in which enemy attacks are varied and various. • All of the characters are developed according to their unique play styles. • Weapon, armor, and magic that can be freely combined. • Player characters that are custom-made for the game. • Multiplayer that supports both online and offline play. ABOUT THE DEVELOPER: Fusion Wave released the game entitled as “Vamana Online” at the Winter of 2019. After releasing the “Vamana Online” game, Fusion Wave’s field of vision has now expanded, and is now developing the “Vamana Online 2” game. Vamana Online 2 (hereinafter, the “Game”) is a fantasy action game that is played in an interconnected online environment where you explore a vast world with your own personal ability. The main features are as follows: • A vast, multilayered story, where the thoughts of the characters interact. • Engaging action combat in which enemy attacks are varied and various. • All of the characters are developed according to their unique play styles. • Player characters that are custom-made for the game. • Battle areas that are procedurally generated by a new artificial intelligence. • Multiplayer that supports both online and offline play. \*This game is an example of the “Game”, and as such, does not represent the entirety of the “Game” as announced in the above text. The information of the “Game”, including the details of the price, release date, and the content, and the development, specifications, and the like have not been decided at this time. (I.e., “the name of the “Game”, “When it’s available,” etc. has not been decided.) ABOUT THE DESIGNER: Producer of the “Vamana Online”
