This means that any time new EC2 instances are needed, the AutoScaling Group should automatically start them. However, the AutoScaling Group also has a security group that has http access to only localhost, so I cannot access my EC2 instances to be able to connect to an API (which is hosted in the EC2 instance itself) and use their authentication tokens. If this is not possible, could my EC2 instances be able to connect to my API server using HTTP or HTTPS? A: It sounds like you need VPC. So, add a few IP addresses to your Security Group to allow 6d1f23a050
