Hiroshi Masuda Guitar Tabs

April 7, 2009 - I've been looking everywhere the way to get his tabs is from his website, the problem is i'm too young to buy his cd and mine... i guess i can grab it from itunes and try to download it to my pc... Here's how I got it for Mac. Just go to the site where I bought the CD (my computer is fine, no need to reinstall itunes to have it downloaded) if the site you bought the CD from doesn't support downloading (like I did). In this case, go to another site where you can download it. If you don't know how to do this or don't know where to buy CDs, it's not your fault. dd2bc28256
