What's New In?

System Requirements:

Please install the base game before playing. 8 GB RAM is recommended 1080p recommended, but not required The actual resolution of the screen is not important Important: If you experience bad performance while playing or view textures not very well, try setting the Graphics Settings to High, and then back to High. Play from a fresh save. In general, if the performance decreases after you save your game, try playing from a new save. If the performance increases, try unchecking the “Fast Texture Streaming
